Race-Type.**

**Own Your
Next Turn.**

Race-Type Construction

Developed directly by our Racing Department, this ski features a Trueblend Race Woodcore combined with full-length Titanal layers from tip to tail for uncompromised power and edge precision. A phenol sidewall ensures razor-sharp grip and maximum torsional stiffness, while a dual-Titanal tip construction, separated by a thin rubber damping layer, delivers a dynamic and progressive flex that adapts smoothly through every turn. The result: race-inspired control and confidence, wherever you push the limits.

0.4 mm Full Titanal

Trueblend Race Woodcore

0.6 mm Full Titanal

Trueblend Race Woodcore

The Trueblend Race Woodcore is designed with a harder flex zone in the center, that provides stability and edge grip, a medium flex zone in front of and behind the binding that provides control, and a soft flex zone in the tip and tail that provides easy turn initiation and release. Trueblend technology allows us to precisely control the flex throughout the whole length of the ski and in every size.

World Cup Running Base

Featuring a World Cup Running Base with a precision fishbone structure, this base technology ensures exceptional glide and superior wax absorption in all snow conditions. Engineered for racers and expert skiers alike, the refined micro-pattern minimizes friction and maximizes acceleration, delivering that unmistakable World Cup-level smoothness from start gate to finish line.

NEW

Firebird Race Type LT (Flat)

Cod. 8A633700-001
Orange

Lengths: 173-179-183 cm
Radius: 17-19-21 m
