K2

24/25 SKI COLLECTION

K2 is the original American Ski and Snowboard Brand, founded in 1962 in Washington State. It started with a shop. A garage. A barn. An island. It started with an idea. It started with belief. It started with madness and mistakes. From a garage brand to a garage brand gone global. For now and always, K2 continues to thrive with innovation, craftsmanship, and commitment.

K2 MINDBENDER

SKI TECH

FREERIDE TECHNOLOGY

TITANAL

Y-BEAM
TECHNOLOGY

TITANAL Y-BEAM

Titanal is placed directly over the edges in the forebody of the ski for predictable turn initiation. Underfoot the titanal spans the full width of the ski for maximum control and power transfer. In the tail we move mass away from the mount points increasing directional stability, resulting in consistent turn release.

SPECTRAL

BRAID
TECHNOLOGY
(U.S. PATENT
NO. 10,857,445)

SPECTRAL BRAID

K2's Patented Spectral Braid is a first of its kind variable angle reinforcement that allows for precision-tuned torsion and flex by altering the fiber orientation along the length of the ski. This makes our skis feel lively, energetic, and remarkably composed.

MINDBENDER 96C

Are you looking for an all-mountain ski that's equally comfortable on hard pack, bumps or the occasional powder day? Answers lie in the Mindbender 96C. Its composure will keep you feeling confident through the chop and chunder. The 96C delivers a playful and stable demeanor, letting you feel secure regardless of where you take them.

KEY FEATURES
Spectral Braid Technology, Bio Resin, Uni-Directional Flax

SIZES (CM):	166, 172, 178, 184
DIMENSIONS (MM):	131 - 96 - 119
ROCKER:	All-Terrain Rocker
RADIUS (M):	16.7 @ 178
CORE:	Aspen Micro Block

MINDBENDER 90C

Ideal for lighter skiers or those who don't need the stability and stiffness of a metal laminate ski, the Mindbender 90C's Aspen Micro Block core and All-Terrain Rocker profile will deliver a fun, lively ride anywhere on the hill.

KEY FEATURES
Spectral Braid, Bio Resin

SIZES (CM):	160, 166, 172, 178
DIMENSIONS (MM):	132 - 90 - 117
ROCKER:	All-Terrain Rocker
RADIUS (M):	14.1 @ 172
CORE:	Aspen Micro Block

MINDBENDER 89Ti

The Mindbender 89Ti is an all-mountain freeride ski with a carving pedigree. Outfitted with classic construction it's got a powerful twist thanks to Titanal Y-Beam technology, providing precise, predictable, smooth turn initiation. The Mindbender 89Ti is the perfect dynamic companion for when you're in the mood to rip but soft snow isn't on the menu.

KEY FEATURES
Ti Y-Beam, Bio Resin

SIZES (CM):	164, 170, 176, 182, 188
DIMENSIONS (MM):	130 - 89 - 114
ROCKER:	All-Terrain Rocker
RADIUS (M):	15.4 @ 176
CORE:	Aspen Micro Block

MINDBENDER 85

The Mindbender 85 is an ideal ski for anyone breaking out beyond the groomers. They are lightweight, forgiving, and intuitive - inspiring confidence in beginner-to-intermediate skiers looking to bring their improving skills to new parts of the mountain.

KEY FEATURES
Bio Resin

SIZES (CM):	156, 163, 170, 177
DIMENSIONS (MM):	128 - 85 - 116
ROCKER:	All-Terrain Rocker
RADIUS (M):	13.1 @ 170
CORE:	Aspen Micro Block

MINDBENDER 116C W

At the widest waist width in the Mindbender Collection, we tasked our engineers with perfecting a versatile powder crusher that our consumers have always wanted - and born was the 116C W. It's versatile enough to take on the burliest of lines while remaining maneuverable and playful in powder - the ultimate secret weapon for any steep and deep descent.

KEY FEATURES
Spectral Braid, Bio Resin, Uni-Directional Flax

SIZES (CM):	163, 170, 177
DIMENSIONS (MM):	143 - 116 - 132
ROCKER:	All-Terrain Rocker
RADIUS (M):	18 @ 170
CORE:	Aspen Micro Block

MINDBENDER 106C W

Every skier needs that one set-up that can handle it all and rip despite varying forecasts. That's why we built the women's-specific Mindbender 106C W. The 106C features a mid-fat waist and a lightweight Aspen Micro Block core, the perfect combination of float and fun. These skis are stable despite their lighter construction and maintain complete maneuverability.

KEY FEATURES
Spectral Braid Technology, Bio Resin, Uni-Directional Flax

SIZES (CM):	155, 162, 169, 176
DIMENSIONS (MM):	138 - 106 - 127
ROCKER:	All-Terrain Rocker
RADIUS (M):	15.7 @ 169
CORE:	Aspen Micro Block

MINDBENDER 99Ti W

The K2 Mindbender 99Ti W is a women’s-specific all-mountain freeride ski built for those who demand complete versatility and stability day-in and day-out. At a more versatile width, the Mindbender 99Ti still maintains its big-mountain power. The Mindbender 99Ti W is the ultimate champion of versatility in a powerful package.

KEY FEATURES
Ti Y-Beam, Bio Resin

SIZES (CM):	154, 160, 166, 172, 178
DIMENSIONS (MM):	134 - 99 - 120
ROCKER:	All-Terrain Rocker
RADIUS (M):	15.4 @ 166
CORE:	Aspen Micro Block

MINDBENDER 96C W

Are you looking for an all-mountain ski that's equally comfortable on the hard pack, bumps or the occasional powder day? Look no further than the all-new K2 Mindbender 96C W. Outfitted with Uni-Directional Flax the 96C W can track in variable terrain. Its composure will keep you feeling confident through the chop and chunder.

KEY FEATURES
Spectral Braid, Bio Resin, Uni-Directional Flax

SIZES (CM):	148, 154, 160, 166, 172
DIMENSIONS (MM):	131 - 96 - 119
ROCKER:	All-Terrain Rocker
RADIUS (M):	12.9 @ 160
CORE:	Aspen Micro Block

MINDBENDER 90C W

The Mindbender 90C W is a women’s-specific ski for intermediate-to-advanced skiers looking for a lightweight ski that’s comfortable going beyond groomers, at a more approachable waist width. Purpose-engineered with Spectral Braid technology, the Mindbender 90C remains maneuverable and energetic without sacrificing stability.

KEY FEATURES
Spectral Braid, Bio Resin

SIZES (CM):	148, 154, 160, 166, 172
DIMENSIONS (MM):	132 - 90 - 117
ROCKER:	All-Terrain Rocker
RADIUS (M):	11.9 @ 160
CORE:	Aspen Micro Block

MINDBENDER 89Ti W

The Mindbender 89Ti W is an all-mountain freeride ski with a carving pedigree. Outfitted with classic construction and a powerful twist thanks to Titanal Y-Beam technology, the 89Ti provides precise, predictable, smooth turn initiation, and enhanced power transfer. These 89Ti’s are optimized for the fluid hardpack experience.

KEY FEATURES
Ti Y-Beam, Bio Resin

SIZES (CM):	146, 152, 158, 164, 170, 176
DIMENSIONS (MM):	130 - 89 - 114
ROCKER:	All-Terrain Rocker
RADIUS (M):	13.1 @ 164
CORE:	Aspen Micro Block

MINDBENDER 85 W

Designed for the progressing intermediate female skiers looking to get off the groomers and into more adventurous terrain, the Mindbender 85 W provides an agile, forgiving platform that excels in a variety of conditions. The 85W is responsive while maintaining accuracy and power.

KEY FEATURES
Bio Resin

SIZES (CM):	149, 156, 163, 170
DIMENSIONS (MM):	128 - 85 - 116
ROCKER:	All-Terrain Rocker
RADIUS (M):	10.7 @ 156
CORE:	Aspen Micro Block

Reckoner

SKI TECH

FREESTYLE TECHNOLOGY

SPECTRAL

BRAID
TECHNOLOGY
(U.S. PATENT
NO. 10,857,445)

Spectral Braid

Another implementation of K2's Torsion Control Design, the patented Spectral Braid makes another appearance in the Reckoner collection. In this iteration, tighter fiber angles are found in the midbody of the ski, with more open angles in the tip and tail. The result is a ski with playful extremities coupled with a stable and powerful feel underfoot. This allows for more playfulness and forgiveness in the ski's extremities while maintaining a stable and powerful feel underfoot.

ALL NEW

RECKONER 124

The Reckoner 124 is a dedicated powder twin-tip built to crush pillows, send cornices, and boost wind lips. A high and long rise in the tip and tail and its lightweight construction helps this ski float through the soft stuff. This versatile powder crusher will keep you spinning tricks from first chair to last.

KEY FEATURES

Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin

SIZES (CM):	159, 169, 179, 189
DIMENSIONS (MM):	150 - 124 - 148
ROCKER:	Powder Twin Rocker
RADIUS (M):	22 @179
CORE:	Aspen

K2 SKI | 2024/2025

ALL NEW

RECKONER KF

The K2 Reckoner KF is the brain child of Karl Forstvedt himself and designed for advanced skiers who demand the best. With a soft flex and twin tip shape, this ski is perfect for hitting big jumps, deep landings, and a playful approach to the biggest lines on the mountain.

KEY FEATURES

Spectral Braid, Carbon Braided Core, Uni-Directional Flax, Carbon Boost , Twin Tech Sidewalls, Bio Resin

SIZES (CM):	172, 177, 184, 191
DIMENSIONS (MM):	137 - 114 - 134
ROCKER:	Powder Twin Rocker
RADIUS (M):	23 @ 184
CORE:	TBD

ALL NEW

RECKONER 110

Introducing the all-new K2 Reckoner 110, a versatile freeride weapon that's been purpose engineered to slarve, slash, jump and cut. Outfitted with a medium waist and rockered profile, this ski delivers exceptional float and maneuverability, while also providing a stable and powerful ride.

KEY FEATURES

Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin

SIZES (CM):	170,177,184,191
DIMENSIONS (MM):	138 - 110 - 135
ROCKER:	All-Terrain Twin Rocker
RADIUS (M):	22 @ 184
CORE:	Aspen

RECKONER 102

Featuring the same tech as its bigger siblings, with new technology for 24' The Reckoner 102 is a playful tool built for whipping cork threes off cat tracks, hitting butters and exploring all over the hill. Strapped with patented Spectral Braid construction, full sidewall and Aspen Micro Block core, it delivers on versatility and playfulness.

KEY FEATURES

Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin

SIZES (CM):	163, 170, 177, 184
DIMENSIONS (MM):	134 - 102 - 127
ROCKER:	All-Terrain Twin Rocker
RADIUS (M):	17.7 @ 170
CORE:	Aspen Micro Block

K2 SKI | 2024/2025

RECKONER 92

The Reckoner 92's will make all your wildest dreams come true. From the park to the trees, to the afternoon chop, these approachable, yet playful skis and their versatile All-Terrain Twin Rocker will have you wondering why you waited so long to jump on the twin-tip train.

KEY FEATURES

Triaxial Braid, Hybritech Sidewall, Bio Resin

SIZES (CM):	149,159,169,179
DIMENSIONS (MM):	124 - 92 - 114
ROCKER:	All-Terrain Twin Rocker
RADIUS (M):	16.9 @ 169
CORE:	Aspen Micro Block

ALL NEW
RECKONER 110 W

Introducing the all-new K2 Reckoner 110 W. A versatile freeride ski that's been purpose-engineered to handle everything from deep powder to variable terrain. With a wide waist and rockered profile, this ski delivers exceptional float and maneuverability, while also providing a stable and powerful ride.

KEY FEATURES
Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin

SIZES (CM):	156, 163, 170, 177
DIMENSIONS (MM):	138 - 110 - 135

DISRUPTION

SKI TECH

CARVING TECHNOLOGY

BEAM TECHNOLOGY

CARBON I-BEAM CONSTRUCTION

Full-length unidirectional carbon running from tip to tail, providing increased accuracy and energy along the entire length of the ski with a lighter, livelier feel than our Titanal I-Beam.

TITANIAL I-BEAM CONSTRUCTION

Titanal runs tip to tail along the center of the ski, optimally shaped for stability and precision through the entire turn.

DISRUPTION MTi

The Disruption MTi is another hard charger from the Disruption collection. Equipped with a medium-length turn radius and Titanal I-Beam construction, these MTis deliver precision and stability throughout the entire turn.

KEY FEATURES
Dark Matter Damping, Ti I-Beam, Powerwall

SIZES (CM):	165, 170, 175, 180
DIMENSIONS (MM):	118 - 74 - 103
ROCKER:	Speed Rocker
RADIUS (M):	18.1 @ 175
CORE:	Aspen/Maple
BINDING:	Marker MXCELL 12 TCx Quikclik

DISRUPTION Ti²

For those looking to maximize their carving to charging ratio -- you've come to the right place. The Disruption Ti2 is a no-hold, stable-as-a-rock hard-charging ski that doesn't know the meaning of second place. The Disruption Ti2 is the dampest piste ski we've ever built.

KEY FEATURES
Dark Matter Damping, Ti2 I-Beam, World Cup Piston Plate

SIZES (CM):	177, 182, 187
DIMENSIONS (MM):	111 - 71 - 96
ROCKER:	Speed Rocker
RADIUS (M):	22.3 @ 182
CORE:	Aspen Micro Block
BINDING:	Marker Xcomp 16 Race

DISRUPTION STi

The Disruption STis are for the aggressive expert skier who goes all-in on every turn and demands a rock-solid edge hold. The Disruption STi utilizes a tighter turn radius for added agility - without sacrificing speed. Its Titanal I-Beam construction runs tip to tail along the center of the ski, optimally shaped to deliver stability in every turn.

KEY FEATURES
Dark Matter Damping, Ti I-Beam, Powerwall

SIZES (CM):	155, 160, 165, 170
DIMENSIONS (MM):	125 - 72 - 107
ROCKER:	Speed Rocker
RADIUS (M):	13.6 @ 165
CORE:	Aspen Micro Block
BINDING:	Marker MXC 12 TCx Light Quikclik

DISRUPTION SC

It's time to start nailing turns like you've always imagined. The Disruption SC's carbon I-Beam construction makes it more forgiving than its metal-laden siblings, while still delivering razor-sharp edge control and a smooth ride on the firmest of hardpack.

KEY FEATURES
Dark Matter Damping, Carbon I-Beam, Powerwall

SIZES (CM):	156, 162, 168, 174
DIMENSIONS (MM):	126 - 73 - 108
ROCKER:	Speed Rocker
RADIUS (M):	14 @ 177
CORE:	Aspen Micro Block
BINDING:	Marker M3 11 Compact Quikclik

DISRUPTION 82Ti

Fully equipped and ready to rip, the Disruption 82Ti has all our top tech including Titanal I-Beam construction and Dark Matter Damping. We gave it a big shovel and the widest waist width in the Disruption family to create a freakish combination of critical stability and confident edge control.

KEY FEATURES
Dark Matter Damping, Ti I-Beam, Powerwall

SIZES (CM):	163, 170, 177, 184
DIMENSIONS (MM):	125 - 82 - 111
ROCKER:	Speed Rocker
RADIUS (M):	18.4 @ 177
CORE:	Aspen Micro Block
BINDING:	Marker MXCELL 12 TCx Quikclik

DISRUPTION 78Ti

Strung up with our revolutionary Dark Matter Damping and Titanal I-Beam construction, the Disruption 78Ti can arc like nothing you've ever experienced. In line with the rest of the Disruption collection, these are made for downhill charging, with maximum control and maneuverability.

KEY FEATURES
Dark Matter Damping, Ti I-Beam, Powerwall

SIZES (CM):	156, 163, 170, 177, 184
DIMENSIONS (MM):	123 - 78 - 109

K2 SKI | 2024/2025

DISRUPTION MTi W

Whether it's your recreation league or early morning descents on fresh groomers, you need a women's-specific piste ski that can charge when you need it to and lay down s-turns when you don't. In the Disruption MTi W, there are no compromises.

KEY FEATURES
Dark Matter Damping, Ti I-Beam, Powerwall

SIZES (CM):	146, 153, 160, 167
DIMENSIONS (MM):	115 - 72 - 103
ROCKER:	Speed Rocker
RADIUS (M):	14.7 @ 160
CORE:	Aspen Micro Block
BINDING:	Marker ERC 11 TCx Light Quikclik

DISRUPTION SC W

The Disruption SC is the perfect ski for women who like an agile short-turn feel. The Disruption SC W is designed for solid carving on groomers, and packs a serious punch thanks to classic Disruption features like Dark Matter Damping which eliminates chatter and increases edge grip, and a responsive, and playful Carbon I-Beam construction.

KEY FEATURES
Dark Matter Damping, Carbon I-Beam, Powerwall

SIZES (CM):	146, 153, 160, 167
DIMENSIONS (MM):	127 - 74 - 109
ROCKER:	Speed Rocker
RADIUS (M):	12.6 @ 160
CORE:	Aspen Micro Block
BINDING:	Marker ER3 10 Compact Quikclik

DISRUPTION 81Ti W

Fast. Stable. Agile. Impossible, you say? Spin a lap on the Disruption 81Ti W and you'll be singing a different tune. Thanks to our Dark Matter Damping which eliminates chatter and sturdy Titanal I-Beam construction, this women's-specific ski is damp and calm when railing groomers thanks to its All-Terrain Rocker.

KEY FEATURES
Dark Matter Damping, Ti I-Beam, PowerWall

SIZES (CM):	146, 153, 160, 167
DIMENSIONS (MM):	124 - 81 - 110
ROCKER:	Speed Rocker
RADIUS (M):	14.8 @ 160
CORE:	Aspen Micro Block
BINDING:	Marker ERC 11 TCx Light Quikclik

DISRUPTION 78C W

The Disruption 78C W is the complete package - nimble and lively thanks to its carbon I-Beam construction, and still delivers the edge grip you need to arc some serious turns on the hardpack, designed with a more forgiving construction than its Ti siblings, the 78C can handle few bumps, while still letting you charge down the fall line.

KEY FEATURES
Dark Matter Damping, Carbon I-Beam, PowerWall

SIZES (CM):	146, 153, 160, 167
DIMENSIONS (MM):	123 - 78 - 108
ROCKER:	Speed Rocker
RADIUS (M):	14.4 @ 160

ROCKER:	Speed Rocker
RADIUS (M):	11.8 @ 156
CORE:	Aspen Light
BINDING:	Marker ER3 10 Compact Quikclik

DISRUPTION 76 W

The Disruption 76 W's are purpose-engineered for the female skier who needs a ski to match their effortless turns and smooth initiation. They've got all the tech any female athlete needs to start carving harder while picking up speed and confidence along the way.

KEY FEATURES
I-Beam, Hybritech Sidewall

SIZES (CM):	142, 149, 156, 163
DIMENSIONS (MM):	126 - 76 - 110
ROCKER:	Speed Rocker
RADIUS (M):	11.8 @ 156
CORE:	Aspen Light
BINDING:	Marker ERP 10 Quikclik

DISRUPTION 75 W

The Disruption 75 W is a women's-specific ski that will take you everywhere on the hill with confidence. It features a Duracap construction which keeps the skis light and forgiving, and a Catch Free Rocker profile for effortless turn initiation.

KEY FEATURES
I-Beam, DuraCap

SIZES (CM):	142, 149, 156, 163
DIMENSIONS (MM):	125 - 75 - 109
ROCKER:	Catch Free Rocker
RADIUS (M):	11.8 @ 156
CORE:	Composite
BINDING:	Marker ERP 10 & ERP 10 Quikclik

WAYBACK 106

A mid-fat waist and a shape that excels in soft snow makes the Wayback 106 your clear choice for when it's deep and weight is a concern, because who wants to trek uphill if the descent is going to be subpar?

KEY FEATURES

Titanal Touring Tech, Carbon Overdrive, Snophobic Topsheet, Bio Resin

SIZES (CM):	165, 172, 179, 186
DIMENSIONS (MM):	132 - 106 - 121
ROCKER:	All-Terrain Rocker
RADIUS (M):	22.3 @ 179
CORE:	Paulownia

WAYBACK 98

The all-new Wayback 98 is the most universal tool in the Wayback collection. Narrow enough for a spring tour but wide enough to navigate variable conditions. Featuring K2's Titanal Touring Tech and All Terrain Rocker, for added control in variable snow.

KEY FEATURES

Titanal Touring Tech, Bio Resin

SIZES (CM):	165, 172, 179, 186
DIMENSIONS (MM):	126 - 98 - 114
ROCKER:	All-Terrain Rocker
RADIUS (M):	22.1 @ 179
CORE:	Paulownia

WAYBACK 92

Taking your first steps into the backcountry or simply looking for a touring setup that won't break the bank? The all-new Wayback 92 is the ski for you. The Wayback 92's All-Terrain Rocker delivers added control in variable snow.

KEY FEATURES

Snophobic Topsheet

SIZES (CM):	153, 160, 167, 174, 181
DIMENSIONS (MM):	126 - 92 - 114
ROCKER:	All-Terrain Rocker
RADIUS (M):	19.6 @ 174
CORE:	Paulownia

ALL NEW

WAYBACK 89

Break trail and drop in like never before on the Wayback 89. Purpose engineered with input from athletes and guides, the all new Wayback 89 boasts a new construction, shape and profile featuring K2's Titanal Touring Tech, All Terrain Rocker and Bio Resin.

KEY FEATURES

Titanal Touring Tech, Snowphobic Top Sheet, Bio Resin

SIZES (CM):	160, 167, 174, 181
DIMENSIONS (MM):	121 - 89 - 107
ROCKER:	All-Terrain Rocker
RADIUS (M):	19.3 @ 174
CORE:	Paulownia

WAYBACK 84

With a Snophobic top sheet and an ultra-light Paulownia Tour Light core, the Wayback 84 is the reliable touring ski that won't break the bank. Its All-Terrain Rocker boasts a gradual rise in the tip for versatility and a short rise in the tail for added control.

KEY FEATURES

Snophobic Topsheet

SIZES (CM):	146, 153, 160, 167, 174
DIMENSIONS (MM):	118 - 84 - 106
ROCKER:	All-Terrain Rocker
RADIUS (M):	20 @ 167
CORE:	Paulownia

WAYBACK 98 W

The all-new Wayback 98 W is the most universal tool in the Wayback collection. Narrow enough for a spring tour but wide enough to navigate variable conditions. The Wayback 98's are maneuverable and stable when speeds get high.

KEY FEATURES

Titanal Touring Tech, Bio Resin

SIZES (CM):	151, 158, 165, 172
DIMENSIONS (MM):	126 - 98 - 114
ROCKER:	All-Terrain Rocker
RADIUS (M):	18.3 @ 165
CORE:	Paulownia

WAYBACK 89 W

Break trail and drop in like never before on the Wayback 89 W. Purpose engineered with input from athletes and guides, the all-new Wayback 89 W boasts a new construction, shape and profile featuring K2's Titanal Touring Tech, All Terrain Rocker and Bio Resin.

KEY FEATURES

Titanal Touring Tech, Bio Resin

SIZES (CM):	153, 160, 167
DIMENSIONS (MM):	121 - 89 - 107
ROCKER:	All-Terrain Rocker
RADIUS (M):	15.8 @ 160
CORE:	Paulownia

SPECIALTY

CRESCENDO

The K2 Crescendo was designed for one purpose... skiing bottomless pow. The Crescendo features K2's patented Spectral Braid Technology, a lightweight aspen/paulownia core and a powder rocker profile giving the Crescendo unprecedented float and maneuverability on even the deepest days.

KEY FEATURES

Carbon Boost Braid, Hybritech, Bio Resin

SIZES (CM):	159, 168, 177, 186
DIMENSIONS (MM):	155 - 132 - 144
ROCKER:	Powder Rocker
RADIUS (M):	17.3 @ 168
CORE:	Aspen/Paulownia

FATTY

It's impossible to step into these bad boys and not have a good time. They're 88 centimeters of pure shred potential. Park tricks? Only limited by your imagination. Hard-charging big mountain? Hell yeah. There are two types of people in the world: those who have Fatties and those who need them.

KEY FEATURES

Duracap

SIZES (CM):	88
DIMENSIONS (MM):	116 - 95 - 109
ROCKER:	Full Camber
RADIUS (M):	5.6 @ 88
CORE:	Composite

Equally at home in a starting gate or lapping soft bumps under bluebird skies, the 244 is the precision mogul ski that will take your game to the next level. Stout, stiff, and built for competition, this ski's pedigree can be traced back to Jonny Moseley's Olympic gold in '98. These boards can bash with the best of 'em.

KEY FEATURES

Duracap

SIZES (CM):	153, 163, 173
DIMENSIONS (MM):	97 - 66 - 82
ROCKER:	Full Camber
RADIUS (M):	23 @ 163
CORE:	Aspen

DISRUPTION JR

The Disruption Jr is for kids who know how to rail a turn, for those tearing up the racecourse, or for those chasing Mom and Dad on early-morning groomer missions. The Disruption Jr perfectly combines flex and versatility with maximum stability.

BOA® FIT SYSTEM
BOOT TECH
TECHNOLOGY

The BOA® Fit System delivers dialed in performance and a micro-adjustable precision fit. It consists of three integral parts: a micro-adjustable dial, lightweight yet extremely strong laces and low-friction lace guides, which are applied in uniquely designed configurations to improve the fit and performance of the boot.

**THREE COMPONENTS.
ENDLESS POSSIBILITIES.**

- 1. DIAL**
Adjusts fit with precision and allows for a fast release.
- 2. LACE**
Lightweight, strong and expertly configured for performance.
- 3. GUIDES**
Low-friction guides to ensure a smooth and precise fit, every time.

HOW IT WORKS:

- Push in to Engage
- Turn for Precision Fit (Tighten)
- Turn for Precision Fit (Loosen)
- Pull Up for Fast Release

BOA® FIT SYSTEM
BOOT TECH
ANATOMY

ENGINEERED FOR UNPRECEDENTED DURABILITY.

H+i1

H+i1 DIAL

Provides micro-adjustable, precision fit and quick release, with quality and durability guaranteed. The BOA dial platform features a breakaway design engineered to eject the dial cartridge upon severe impact without damaging the system, allowing skiers to pop the dial back into the bayonet mid-mount. In the unlikely event that the system is broken, it can be easily repaired and replaced.

SS3 LACE:

Built to withstand skiing the toughest terrain, season after season. Made of stainless steel, SS3 is our strongest, most durable lace, boasting a tensile strength of more than 254 kg.

RIVET GUIDES:

Heavy-duty guides for low friction tightening and loosening.

LACE & SYSTEM STRENGTH:

90 19 strands of stainless steel permeated and wrapped in Nylon coated by 90 more strands of stainless steel ensuring maximum durability

1.7 1.70 mm thin, lightweight and yet super durable

254 Tensile strength of more than 254 kg

BOA® FIT SYSTEM
BOOT TECH
PERFORMANCE BENEFITS

The BOA® Fit System provides a performance fit engineered to enhance feel and responsiveness while reducing pressure points by incrementally modulating the Alpine boot closure with precise micro-adjustments.

DIALED IN

Precision fit with on-the-fly tightening and loosening for enhanced responsiveness, optimized pressure distribution, and reduced pressure points.

LOCKED IN

Connected fit designed to uniformly wrap the foot and minimize downward pressure, increasing heel lock-down for improved power and edge-to-edge control.

CONFIDENT

Engineered for confidence and built to withstand rugged terrain and inclement weather, BOA® dials and laces deliver extreme durability. Bayonet and cartridge system ensures continued operation, even after heavy impacts.

MINDBENDER 140 BOA®

All new to the 24' lineup, the Mindbender 140 BOA® is the stiffest boot we've put on the market. With both high-performance touring capability, and microadjustability thanks to BOA® Fit System technology-- you're ready to take on both lift-assisted or backcountry endeavors.

DISPATCH

From the skin track, to the camp site, to the second skin track, to the descent, you can count on the Dispatch pole to deliver comfortable, lightweight performance every step of the way. Constructed from durable 7075 aluminum, the Dispatch pole features our new articulating powder basket so that you can be equipped for whatever the day has to offer.

KEY FEATURES

Grip - Freetour Grip w/Emergency Release Strap

GRIP:	Freetour
SHAFT:	18mm 7075 Aluminum
BASKET:	Articulating 2.0 Powder
SIZES (CM):	115, 120, 125, 130
COLORS:	Brown

FREERIDE
FLIPJAW

Forged out of tough 7075 aluminum and featuring K2's proprietary Flipjaw locking mechanism, the Freeride Flipjaw seamlessly transitions from early-morning skin tracks to afternoon resort laps. Ditch those featherweight touring poles for something that is equally at home on the skin track and the chairlift.

KEY FEATURES

Flipjaw Adjustment Mechanism

GRIP:	Freeride Dual Injection
SHAFT:	Adjustable 7075 Aluminum
BASKET:	70mm Freeride
SIZES (CM):	Adjustable: 100-120, 110-135
COLORS:	Black/Brown, Purple/Pink

FREERIDE
18

With a comfy dual injection rubber grip and a bombproof 18mm diameter aluminum shaft, the Freeride 18 is built to last. Listen, you can get some crazy bells and whistles on poles these days, all you really need is a comfy grip paired with durable aluminum. Keep things sturdy and simple - drop in with the Freeride 18.

KEY FEATURES

Freeride Dual Injection

GRIP:	18mm 7075 Aluminum
SHAFT:	70mm Freeride + 95mm Powder
BASKET:	110, 115, 120, 125, 130
SIZES (CM):	110, 115, 120, 125, 130
COLORS:	Khaki, Green

FREERIDE
16

With a comfy grip and lightweight 16mm aluminum shaft, the Freeride 16 is built with female skiers in mind. Whether you're rallying pow stashes far from the lift or shoving off for another park lap, reach for the reliable Freeride 16 and let the good times roll. Available in shorter lengths for smaller skiers.

KEY FEATURES

Velcro Adjustable Strap

GRIP:	Freeride Dual Injection
SHAFT:	16mm Aluminum
BASKET:	70mm Freeride
SIZES (CM):	95, 100, 105, 110, 115, 120
COLORS:	Strazz

POWER CARBON

All carbon ski poles are basically the same, right? Wrong. Take a look at the lightweight Power Carbon - with a slick pole strap adjustment system and ultra-comfy Ripcord grip, you'll be wondering what exactly you've been wrapping your fingers around all these years. You're picky about your skis, boots, and goggles - why not be just as discerning when it comes to your poles?

KEY FEATURES

Carbon Web

GRIP:	Ripcord
SHAFT:	14mm Carbon Web
BASKET:	70mm Freeride
SIZES (CM):	110, 115, 120, 125, 130
COLORS:	Orange, Red

POWER COMPOSITE

With a thermo-formed Performance Rubber grip and lightweight-yet-durable 16mm composite shaft, the Power Composite represents that perfect balance between lightweight performance and durable practicality.

KEY FEATURES

100% Composite

GRIP:	Performance Rubber
SHAFT:	16mm Composite
BASKET:	60mm All Mountain
SIZES (CM):	110, 115, 120, 125, 130, 135
COLORS:	Yellow, Gunmetal

POWER ALUMINUM

Save some coin without sacrificing proper pole plants. You might have just used "whatever is lying around" in the past, but that ain't cutting it now. Get your hands on a pair of durable Power Aluminum poles, featuring a robust 18mm-diameter shaft, and push off into your next on-mountain adventure.

KEY FEATURES

Nesting Baskets

GRIP:	Performance Rubber
SHAFT:	18mm Aluminum
BASKET:	60mm Performance
SIZES (CM):	110, 115, 120, 125, 130, 135
COLORS:	Black, Blue, Green

STYLE CARBON

Harnessing the comfort and customization of our Ripcord grip, the Style Carbon offers a featherweight feel and full-carbon shaft for female skiers who demand the best from their gear. Understated styling, lightweight performance, and the durability to last for seasons of use. Available in shorter lengths for smaller skiers.

KEY FEATURES

Carbon Web

GRIP:	Ripcord
SHAFT:	14mm Carbon Web
BASKET:	60mm All Mountain
SIZES (CM):	105, 110, 115, 120
COLORS:	Black

STYLE COMPOSITE

The Style Composite is K2's sensible, lightweight pole offering for the ladies. Equipped with an ergonomic Performance Rubber grip and a 16mm shaft diameter that reduces weight without sacrificing durability, these poles will have you focusing on your skiing, not your gear. Available in shorter lengths for smaller skiers.

KEY FEATURES

100% Composite

GRIP:	Performance Rubber
SHAFT:	16mm Composite
BASKET:	60mm All Mountain
SIZES (CM):	105, 110, 115, 120
COLORS:	White, Burgundy

STYLE ALUMINUM

For the female skier who doesn't want to worry about the durability of her ski poles, we offer the Style Aluminum. Built with a strong but lightweight 16mm aluminum shaft, these poles strike the perfect balance of reliable performance and incredible value. Available in shorter lengths for smaller skiers.

KEY FEATURES

Nesting Baskets

GRIP:	Performance Rubber
SHAFT:	16mm Aluminum
BASKET:	60mm Performance
SIZES (CM):	105, 110, 115, 120
COLORS:	Black, Blue

LOCKJAW CARBON PLUS

You’ve been checking the forecast, and everything is lining up. Stable, cold snow lies just a few hours’ skin from the trailhead. Scoop up the Lockjaw Carbon Plus and take a hike (in a good way). With an extended Adventure Ultra Light EVA foam grip, articulating powder baskets, proven Lockjaw 6000 locking mechanism, and built-in bubble inclinometer, the Lockjaw Carbon Plus poles are as adventure-ready as you are.

KEY FEATURES

Lockjaw 6000 Adjustment Mechanism, Bubble Inclinometer

GRIP:	Adventure Ultra Light EVA
SHAFT:	Adjustable Carbon Web
BASKET:	95mm Articulating
SIZES (CM):	Adjustable: 105-145
COLORS:	Yellow

LOCKJAW CARBON

With a carbon upper and aluminum lower, the Lockjaw Carbon is ready for big days in the backcountry. Featuring our bombproof Lockjaw 6000 adjustment mechanism, elongated EVA foam grips for easy sidehilling, and an integrated bubble inclinometer to help keep you safe, the Lockjaw Carbon proves that poles are more than just pointy sticks to keep you upright.

KEY FEATURES

Lockjaw 6000 Adjustment Mechanism, Bubble Inclinometer

GRIP:	Adventure Ultra Light EVA
SHAFT:	Adjustable Carbon Upper/7075 Aluminum Lower
BASKET:	95mm Powder
SIZES (CM):	Adjustable: 90-130, 105-145
COLORS:	White

LOCKJAW ALUMINUM

Sometimes you just need a reliable adjustable pole to get you into the backcountry. Look no further than the Lockjaw Aluminum: reliable, wallet-friendly, and available with an optional extended EVA foam grip. Complete your kit and hit the skin track.

KEY FEATURES

Lockjaw Adjustment Mechanism, Bubble Inclinometer

GRIP:	Adventure Ultra Light EVA
SHAFT:	Adjustable 7075 Aluminum
BASKET:	95mm Powder
SIZES (CM):	Adjustable: 105-145
COLORS:	Grey

SWIFT STICK

Why run a pair of trekking poles in the summer and then have to buy a pair of ski poles for the skin track? If your life revolves around the trails – during summer and winter – get the four-piece, collapsible, adjustable Swift Stick. With our Flipjaw telescoping design, Adventure EVA foam grip, and sturdy aluminum construction, the Swift Stick will be your number one companion, regardless of the season.

KEY FEATURES

Flipjaw Adjustment Mechanism, Bubble Inclinometer

GRIP:	Adventure Ultra Light EVA
SHAFT:	Adjustable 7075 Aluminum
BASKET:	95mm Powder
SIZES (CM):	Adjustable: 110-130
COLORS:	Grey

SPROUT

Nothing is worse than buying a bunch of gear for your kid, only to have them outgrow it within a year. Pick up the adjustable Sprout and rest easy, knowing that your pint-sized shredder’s poles will last for more than a season.

KEY FEATURES

Flipjaw Adjustment Mechanism, Nesting Baskets

GRIP:	Rubber
SHAFT:	Adj. 14mm Aluminum Upper/16mm Aluminum Lower
BASKET:	50mm Performance
SIZES (CM):	Adjustable: 75-105
COLORS:	Blue, Green

DECOY/CHARM

With two colorways – his and hers – the Decoy and Charm poles add a dash of style to any kid’s setup. Plus, these poles are built out of sturdy aluminum, meaning they can withstand the rowdiest of on-snow antics.

KEY FEATURES

Nesting Baskets

GRIP:	Rubber
SHAFT:	16mm Aluminum
BASKET:	60mm Performance
SIZES (CM):	75, 80, 85, 90, 95, 100, 105
COLORS:	Blue, Purple

360 HELMETS

DIVERSION MIPS

From chasing the sneaky hidden honey holes deep in the trees, to high-speed arcing on afternoon groomers, the last thing you want to worry about is protecting your most precious asset (that’s your brain). Now available with an optional MIPS liner for increased protection, the Diversion rocks a low-profile design, 360 K2dialed fit, and Dual Active Matrix venting so you’ll forget that you’re even wearing a helmet.

UNIVERSAL SKI ROLLER BAG

With a lofty 128L of volume, this bag can hold two pairs of skis, poles, and more. Outfitted with 600D ripstop nylon fabric and PE backing, reinforced carry handles, a luggage tag window, and an external storage pocket.

SIZES: 185, 200
COLORS: Black, Sage

LUGGAGE ROLLER

100L, checked luggage travel roller, 15.7" x 29.5" x 12", internal organization, external pockets, ID tag

COLORS: Black, Sage

DOUBLE PADDED SKI BAG

Fortified with 600D ripstop nylon, a TPU-coated bottom, and a padded tarpaulin lining, and double-pair capacity.

SIZES: 175, 195
COLORS: Black, Sage

CARRY-ON ROLLER

Carry-on size, internal organization, external pockets, ID tag

COLORS: Black, Sage

SINGLE PADDED SKI BAG

Outfitted with a sturdy 600D ripstop nylon backing, reinforced carry handles, and a padded tarpaulin lining, and single-pair capacity.

SIZES: 175, 195
COLORS: Black, Sage

GEAR DUFFLE 70L/50L/20L

End and side carry handles, shoulder strap, backpack straps, weatherproof TPU coated ripstop, compression straps

COLORS: Black, Sage, Orange

BOOT LOCKER

600D ripstop nylon with PE backing, padded tarpaulin lining, TPU-coated bottom. Features boot compartment with drainage, helmet compartment, goggle compartment, external storage pocket

COLORS: Black, Coyote, Sage

BOOT BAG

600D ripstop nylon with PE backing, padded tarpaulin lining, TPU-coated bottom

COLORS: Black, Sage

MOUNTAIN BACKPACK

Designed with durability and comfort in mind the Mountain Backpack is constructed with sturdy 600D ripstop nylon with PE backing, a padded back panel, compression shoulder straps, a zip-away water bottle holder and 30L's of storage. This backpack is built to outlast any adventure.

COLORS: Black, Coyote, Sage

CITY BACKPACK

Designed with all-day comfort in mind the City Backpack comes equipped with a padded back panel, compression shoulder straps, a zip-away water bottle holder, padded laptop sleeve, and a plethora of storage to accommodate any adventure.

CONSTRUCTIONS
SKI TECHNOLOGY

CONSTRUCTION

Triaxially Braided - K2-patented process that interlocks strands of fiberglass around a milled core for pronounced torsional strength while retaining the flex patterns inherent in a wood ski.

Metal Laminate - A metal laminate construction, denoted by "Ti" in the name, uses a sheet of Titanal above and below the core to give the ski a damp, precise and accurate feel.

Hybritech Sidewall - Blending a sidewall construction underfoot with a cap construction in the extremities. The sidewall section gives the ski accuracy, power, and edge grip while the capped region reduces the swing weight and increases overall durability.

DuraCap Construction - A molding process that envelops the core and internal materials with the top layer of the ski. Duracap skis are generally lighter overall, with enhanced durability and forgiveness.

TwinTech Sidewalls - A Durable, Full sidewall construction providing great edge feel and performance with added top sheet resistant to ski vs. ski impact damage.

WOMEN'S SPECIFIC

Stance Forward - More than simply moving the mounting point on a men's ski, the overall shape, sidecut, and flex are designed around the biomechanics of how women stand and pressure the ski during a turn.

Correct Flex - Eliminates the overly stiff mid-section typically found on shorter lengthed skis. K2 addresses this with an insert that leaves a smooth, consistent flex profile optimized on every size from longest to shortest.

FREERIDE

Torsion Control Design - Designed to enhance stability and control in all snow types, TORSION CONTROL DESIGN combines a progressive torsional flex with a balanced and even longitudinal profile. Torsionally stiffest in the forebody and center of the ski, then easing throughout the tail, K2 skis with TCD have both precise, accurate turn initiation and smooth, consistent turn release in all snow types.

Ti Y-Beam - Y-Beam Technology is a unique shape of titanal that places metal furthest away from the neutral axis in the tip to provide precision and pull at the top of the turn. Underfoot, the metal extends edge to edge for power. In the tail, it tapers in to allow the ski to break free on the back end.

Spectral Braid - An extension of K2's Torsion Control Design. Spectral Braid is a first of its kind variable angle reinforcement that allows for precision tuned torsion and flex by altering the fiber orientation along the length of the ski. Lively, energetic, and remarkably composed; Mindbender skis with K2's Spectral Braid have stability and control in spades while remaining hyper-maneuverable.

Uni Directional Flax- Flax improves a ski's ability to track in variable terrain resulting in improved suspension and composure.

CONSTRUCTIONS
SKI TECHNOLOGY

CARVING

Dark Matter Damping - A space age sandwich of high modulus carbon and a polymeric damper, strategically placed along the ski's edge. Edge contact on rough and firm snow is dramatically enhanced improving grip and control.

Titanal I-Beam - Titanal runs from tip to tail along the center of the ski, optimally shaped for stability and precision through the entire turn.

Carbon I-Beam - Full length uni-directional carbon running from tip to tail, providing increased accuracy and energy along the entire length of the ski.

FREESTYLE

Spectral Braid - An extension of K2's Torsion Control Design, Spectral Braid is a first of its kind variable angle reinforcement that allows for precision tuned torsion and flex by altering the fiber orientation along the length of the ski. Lively, energetic, and remarkably composed.

Double Barrel - The backbone of our Park & Pipe collection, Double Barrel cores combine a dense, Fir core over the edges for power and impact resistance, with a lighter Aspen center core for a lively energetic feel.

Carbon Boost Braid - Longitudinal carbon stringers woven into the K2's patented Triaxial Braid for added pop and rebound.

TOURING

Titanal Touring Tech - First of its kind, Titanal laminate developed specifically for K2 Touring skis that dramatically increases damping and predictability on lightweight carbon constructions, while enhancing stability and edge grip.

Carbon Overdrive - A proprietary construction that delivers incredibly high performance at extremely low weights.

Snowphobic Topsheet - Hydrophobic, snow shedding top material that helps prevent snow from sticking to the tops of your skis.

SKI TECHNOLOGY

ROCKER PROFILES

ROCKER

Once thought of as a powder-specific feature, K2 pioneered the use of rocker on all-mountain and piste skis, with the rest of the ski industry following in our foot-steps. Today, almost all of our skis are built with rocker, with the height and length optimized on each model for maximum performance and enjoyment.

SPEED ROCKER - Short, low rise in the tip with camber throughout and a flat tail for quick turn initiation, precise steering, and maximum stability on groomed snow.

POWDER ROCKER - High and long rise in the tip, low camber underfoot, and a medium-height, long rise in the tail to maximize float in soft snow.

POWDER TWIN ROCKER - High and long rise in both the tip and tail for maximum float in soft snow.

ALL-TERRAIN ROCKER - Gradual rise in the tip for great versatility in all conditions, with a low, short rise in the tail for added control in variable snow.

ALL-TERRAIN TWIN ROCKER - gradual, extended rise in the tip and tail for added versatility and control in all conditions.

CATCH FREE ROCKER - Effortless turn initiation at slow to moderate speeds thanks to a medium-height, gradual rise in the tip and a low, gradual rise in the tail.

SKI TECHNOLOGY

SKI CORES

CORES

K2 uses a variety of wood species in our cores to fine-tune the performance characteristics of each ski.

ASPEN
Lightweight and resilient. Great all-around core material.

ASPEN MICRO BLOCK
Many small stringers of Aspen give a consistent flex, smooth feel, and damp ride.

MAPLE
Dense hardwood with excellent power transfer and stability.

PAULOWNIA
Lively, flexible wood with excellent strength-to-weight ratio.

FIR
Energetic, tough, dense wood that absorbs impacts well.

BALSA
Ultra light and responsive, balsa is used in the core of our lightest touring ski, the Wayback 80.

BINDING TECHNOLOGY

POWERED BY MARKER

XCOMP	POWERED BY 	XCOMP 16 - Premium construction and technology, including magnesium components for precise steering and control. XCOMP dampening technology eliminates fast, hard impacts and keeps the boot perfectly centered.
MXCELL	POWERED BY 	MXCELL 12 TCx - Designed for maximum power transmission between ski and boot with the XCELL Piston Technology toe piece to keep the boot centered during quick jolts, and the TCx heel for control and precision performance.
MXC TWINCAM X	POWERED BY 	MXC 12 TCx light - Combining aTriple Pivot X toe with a Twin Cam X light heel. Giving a modern look to all-mountain performance.
M3 10 COMPACT	POWERED BY 	M3 10/11 COMPACT - A lightweight binding system with the Triple Pivot Comfort toe and a compact heel for comfort and a secure feel.
M2 10	POWERED BY 	M2 10 - Designed to save weight with the highly-functional compact heel and the TLT two-linkage toe for full lateral and backward release for beginner skiers.
ERC 11 TWINCAM X LIGHT	POWERED BY 	ERC 11 TCx light - Combining a lightened Triple Pivot toe and a Twin Cam X light heel with easy entry for the lightest and highest-performance women's system.
ER3 10 COMPACT	POWERED BY 	ER3 10 COMPACT - A lightweight binding system with the Triple Pivot Comfort toe and a compact heel for comfort and a secure feel.
ERP 10	POWERED BY 	ERP 10 - The lightest women's binding system offered, with easy entry and targeted functionality for beginner skiers.
GRIPWALK SYSTEM		GRIPWALK SYSTEM - NOW FEATURED ON ALL BINDINGS Patented ISO 9523 rocker sole boot and binding system designed for better grip and added walking comfort without compromising the binding's power transmission and release function.

CONSTRUCTIONS

2 PIECE BOOT TECHNOLOGY

SHELLS

POWERLITE SHELL

K2’s highest-performance shell design, utilizing shell walls of varying thicknesses and four different types of TPU to provide the ultimate combination of light weight and responsiveness.

POWERLITE TOUR SHELL

K2’s highest-performance touring shell design, utilizing shell walls of varying thicknesses to provide the ultimate combination of light weight and responsiveness. Completely heat moldable. Eco-Friendly Pebax Upper Cuff and Shell. Consistent flex across a wide range of temperatures. Bootfitter Friendly.

LINERS

BOA® TOURFIT LINER

BOA liner increases adjustability and even hold across the entire foot. Features stiffer foam with asymmetric tongue for added power and energy transmission. Completely heat moldable with pre-molded ankle pocket.

TOURFIT LT

Lightweight construction that offers same performance features in the pro model. Stiffer foam with asymmetric tongue for added power and energy transmission. Completely heat moldable with pre molded ankle pocket

TOURFIT

Lightweight, hard charging construction inspired by the Lux Fit Tour liners. Pre molded ankle bumps for added fit and fully heat moldable with asymmetric tongue.

POWERFIT PRO

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring stiffer foam and a stiff, asymmetric tongue for added power and energy transmission, pre-molded ankle pockets, and a high-density power collar.

PRECISIONFIT PRO

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring an asymmetric tongue, pre-molded ankle pockets, and a high-density power collar for a firm-but-comfortable performance fit.

POWERFIT PRO TOUR

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring stiffer foam and a stiff, asymmetric tongue for added power and energy transmission, pre-molded ankle pockets, and a high-density power collar. Includes a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

PRECISIONFIT PRO TOUR

Pre-molded and lasted with Ultralon heat-moldable foam. Features an asymmetric tongue, high-density power collar, and a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

LUXFIT PRO

Pre-molded and lasted with Ultralon heat-moldable foam. Features medium-density foam, pre-molded ankle pockets, and a medium-density collar, providing an ideal blend of performance and comfort.

LUXFIT PRO TOUR

Pre-molded and lasted with Ultralon heat-moldable foam. Features medium-density foam, pre-molded ankle pockets, and a medium-density collar, providing an ideal blend of performance and comfort. Includes a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

CUSHFIT PRO

Maintains the renowned comfort of the original Cushfit liner, but with a notable increase in support and performance thanks to the use of Ultralon foam, similar to what is used in our Power-fit Pro and Precisionfit Pro liners.

CUSHFIT PLUS

Lasted with a blend of open-cell and EVA foam for an extremely comfortable, warm, and supportive fit.

CUSHFIT COMFORT

Same great fit and out-of-the-box feel as our classic Cushfit liner, but with additional foam in key areas for increased comfort and compliance.

CUSHFIT JR

A scaled-down version of our adult Cushfit liner built for our youth boots.

CONSTRUCTIONS

2 PIECE BOOT TECHNOLOGY

FEATURES

PEBAX

Lightweight, eco-friendly material used in the cuff of select boot models for energetic and consistent flex across a wide range of temperatures.

FASTFIT INSTEP

Softer TPU material is used in the instep area of select models’ shells for quick and easy entry and exit.

HANDS FREE ENTRY

Dual material overlap for hassle-free entry and exit.

ENERGY INTERLOCK

A rivet-free technology that integrates the cuff and shell, putting less stress on the boot’s lower shell and producing a smooth, progressive flex.

POWERFUSE SPYNE

A co-injected Y-shaped support in the rear of the boot that adds strength and power to the Energy Interlock in order to maximize fore/aft flex efficiency and lateral stiffness, providing enhanced responsiveness and energy transfer to the ski.

CUFF ALIGNMENT INDEX

Single-sided alignment system for +/- 1 degree of lateral cuff adjustment

DUAL CUFF ALIGNMENT INDEX

Dual-sided alignment system for +/- 2 degrees of lateral cuff adjustment.

FULLY HEAT-MOLDABLE

Both the boot’s shell and cuff are capable of being heat-molded to a variety of foot shapes for a true custom fit.

WOMEN’S-SPECIFIC LAST

A lower cuff height, lower-volume shell, and narrower heel to accommodate women’s lower leg and foot shapes.

WOMEN’S ADJUSTABLE CUFF

Allows for quick adjustment of the cuff opening to accommodate a variety of lower leg shapes.

APRÈS MODE 2.0

A new and improved walk mode offering a massive 50-degree range of motion. A lever on the back of the boot unlocks the upper cuff from the lower shell, allowing for increased comfort and convenience when walking from the car to the lift.

INTEGRATED TECH FITTINGS

Tech fittings in the toe and heel are fully integrated into the shell injection, allowing for compatibility with both tech bindings and alpine DIN bindings.

FRICTION FREE CUFF PIVOT

An easy-hinging cuff pivot designed to provide minimal resistance while in walk mode.

GRIPWALK OUTSOLES

Removable and interchangeable rockered soles designed to work with Marker’s GripWalk binding system for better grip and comfort while walking, standing, and hiking.

REPLACEABLE OUTSOLES

Dual-injected TPU for secure footing, direct power transfer to the ski, and increased wear resistance.

CANTABLE OUTSOLES

Shims can easily be placed underneath the outsoles to cant the boots for a customized fit.

NAVICULAR PUNCH

A strategic bump built into the boot mold to alleviate pressure commonly experienced during ankle flexion.

ASYMMETRICAL TOE BOX

Fits the natural curvature of your toes for added comfort and to ensure a proper fit.

POWER WEDGE

A removable spoiler that fits between the liner and the back of the boot cuff that allows for adjustment of the boot’s forward lean angle, ranging from 12 to 14 degrees.

THERM-IC BLUETOOTH HEATED LINER

Control your Therm-ic heated boot liners using the free Therm-ic Heat Control app on your smartphone. Available for iPhone and Android devices.

SWITCHBACK BUCKLE

Buckles lock in the forward position when touring to increase ROM. Toe buckle flipped on toebox for increased clearance in variable terrain. Magnesium buckles and wire balls for additional weight savings.

DYNAFIT TECH FITTING

Dynafit tech fittings in the toe and heel are fully integrated into the shell injection.

VIBRAM OUTSOLE

Designed with adventure in mind. Superior grip and durability. K2 exclusive tread pattern. 9523 iso DIN.

HONEYCOMB BOOTBOARD

Stay Warmer, Longer. Traps heat and insulates like a down jacket. Retains heat 15% better than traditional bootboard. Boot-fitter friendly

POWERLOCK 2.0 WALK MECHANISM

Improved walk mechanism with locking lever, 9-15 degrees of forward lean adjustability and 60 degrees ROM.

MULTIFIT LAST

The MultiFit Last was developed in conjunction with the BOA Fit System to accommodate a variety of foot shapes ranging from 97mm to 104mm eliminating the need for multiple last options.

BOA FIT SYSTEM

The BOA Fit System provides a performance fit engineered to enhance feel and responsiveness while reducing pressure points by incrementally modulating the Alpine boot closure with precise micro-adjustments.

LINER TOE SHIM

Designed to create the perfect fit for a variety of foot shapes. These 4mm toe shims can be added to the liner on all BOA boots to decrease the volume between the toe-box and instep.

HARSH MELLOW MODULAR INSERTS

The honeycomb boot board includes two modular heel inserts. A soft Harsh Mellow insert for a high level of damping or a more rigid insert for improved power transfer.

CONSTRUCTIONS

3 PIECE BOOT TECHNOLOGY

SHELLS

REVOLVE

Revolver Shell, offers the same fit and feel as the Raichle boots of years past, updated to withstand the rigors of today. Precise, snug, and proven, this 99mm last shell has become the definitive freestyle boot of the modern era.

REVOLVE PLUS

The Revolver Plus Shell takes the same 99mm last and opens up the toe box for a roomier feel out of the box. The Pillar Shell uses the original 3-piece design and adds replaceable soles for extended longevity and increased traction.

METHOD

The Method Shell adds much needed depth to the FL3X line. Designed for those with a wider foot, the Method shell incorporates a higher volume fit and a 102mm last.

DIVERGE TOUR

The Diverge Tour Shell offers a smooth stride and articulated purchase in any situation. Walk farther and more comfortably than ever before. Featuring a higher back cuff and lightweight Grilamid™ plastic, this construction will take you anywhere.

LINERS

INTUITION PRO TOUR WRAP

Slip-on the Intuition Pro Tour Wrap and get ready to motor on up the skin track. Crafted out of Intuition® Foam, and featuring a tour notch and lace-up system, the Intuition Pro Tour Wrap offers the added comfort and performance your boot is missing.

INTUITION PRO WRAP

Slip into the Intuition Pro Wrap, and experience unmatched ankle retention and pressure-free performance. Crafted out of Intuition® Foam, the Intuition Pro Wrap offers the added comfort and performance your boot is missing.

INTUITION WRAP

The Intuition Wrap Liner’s laminates are specifically engineered to be our lightest weight liner for increased maneuverability while maintaining it’s warmth and custom moldable fit right out of the box.

INTUITION PRO TOUR TONGUE

With a Tour Flex Notch, removable external J-Bars, and lacing system, the Intuition Pro Tour Tongue makes walking a blister-free experience in an enveloping snug fit, while giving you the performance you need to send it on the downhill.

INTUITION PRO TONGUE

Crafted out of Intuition® Foam, the Intuition Pro Tongue Liner’s laminate is specifically engineered to provide energy transfer to the shell while maintaining warmth in a custom, moldable fit. Slip-on the Intuition Pro Tongue liner and feel the power of the highest performing liner that we’ve ever created.

INTUITION TONGUE

The Intuition Tongue Liner’s laminates use multi-layered construction in a traditional tongue liner, designed to provide targeted comfort and performance in a familiar way.

CONSTRUCTIONS

3 PIECE BOOT TECHNOLOGY

FEATURES

RIBBED TONGUE

100% Ribbed tongue enables smoother, more natural linear flex from your shin to your toe. The tongue bends like a flexible straw, never bottoming out while providing smooth rebound. No more shin bang!

EASY ON/OF

The front of the shell opens a full 90° to slide your foot in and out with ease in all temperatures. Like putting on slippers!

MOLDABLE

Utilizing the QuickFit™ System, all FL3X boots – shells included – can be molded to the exact needs of your foot. Not all feet are the same; and with FL3X, we pride ourselves on creating boots that allow a personalized, 1-to-1 fit experience.

ADJUSTABLE FLEX

The boot’s flex is rated on a simple scale of 4-12 (12=stiffest). Change a boot’s flex by simply switching the tongue. (Competitor’s boots require permanent cutting.)

INFINITE PIVOT

Unlike traditional designs, the rear cuff never bottoms out. It pivots infinitely forward with your calf for less shell distortion, no shin pain and more control.

CUSTOMIZABLE

All parts are sold separately for unlimited personalization and repair using a standard phillips head screwdriver.

LADDER BUCKLE

The ladder buckle features an intuitive, easy to remember, macro-size adjustment, plus a micro-twist for fine adjustment with a light, easy-to-handle aluminum lever.

FORWARD LEAN & CUFF ALIGNMENT

Tool-less forward angle adjustment. Original & Soul shells: 2mm or 4mm. Easy, precise lateral angle adjustment. Revolver & Revolver Plus shells: 12mm.

WOMEN’S CUFF

The women’s cuff is anatomically shaped to match a female’s specific calf shape for increased comfort and control.

SHOCK ABSORBER BOOT BOARD

Soft rubber layer in the sole of the shell absorbs vibrations, impact and shock for a smooth ride.

WIDETRACK BUCKLE

Durable aluminum levers with a minimalistic lightweight design. This adjustment mechanism is engineered to increase precision and durability while maintaining on-the-fly, single-handed micro adjustment.

45 DEGREE HEEL LOCK

Keep heels where they belong. Placing the middle buckle at an optimal 45 degree angle creates a solid lock for the heel to stay put when pressuring the tips and tails of the skis.

GRIPWALK OUTSOLE

Designed for a better purchase on unstable & slippery terrain. The convex shape and ribbed tread add both comfort & grip for getting from house to hill to peak! Sold separately. Available for Revolver Plus and Method models.

J-BAR

An additional j-shaped piece of foam is inserted internally on both sides of the ankle area to dramatically increase ankle hold down, to keep your feet perfectly in place for precise control.

POWER WEDGE

Dial in you forward lean angle with this removable velcro spoiler.

WIDE TOE

A thinner foam is used in the front of the liner to increase space without sacrificing control for people with wider feet or who prefer a little more toe room.

INTUITION

All boot liners are built using authentic Intuition™ closed cell foam. It is body heat activated to mold 100% to your feet and shells during use, or can be instantly heat molded by a shop in minutes for a light, warm and super comfortable fit.

WOMEN’S LINER

The women’s cuff is anatomically shaped to match a women’s-specific calf shape for increased comfort and control.

TECH FITTINGS

Compatible with all pin-tech bindings, the in-molded tech fittings open up a new world of possibilities for FL3X Boots. One boot – any objective.

MID GRIP

Whether you are climbing grated stairs or scrambling on top of a mountain, a dual material or single material midgrip gives you the confidence to stay on your feet.

WALK MODE

Flip the lever up to ascend with ease. And when it’s time to send it, flip the lever down, lock the cuff in place, and push into the fluid, progressive flex you’ve come to expect from FL3X. Works great for après bar sessions too.

DUAL MATERIAL OUTSOLES

No slipping getting in-between you and the ground. A firm TPU and a softer material combat wear and keep your feet underneath you on any surface.

POWER WRAP

An additional layer of ergonomically shaped EVA is wrapped around the outside of the upper liner to increase energy transfer and horsepower to the shell.

TECHNOLOGY
POLES

POLE
CONSTRUCTION

CARBON
WEB

Carbon Web - External carbon strands are precisely laminated onto the carbon shaft creating K2's lightest weight, most durable, and stiffest shaft offered.

100%
COMPOSITE

100% Composite - Full composite construction for a great combination of weight, durability, and cost.

ALUMINUM
7075/6061

Aluminum 7075 or 6061 - High strength aircraft grade aluminum for a seamless, durable tubing shaft.

GRIP TECH

RIP CORD
GRIP

Rip Cord Grip System - Safety releasable strap mechanism integrated into grip top. Unique lightweight cored out grip design removes material where possible. Utilizing a slim, neoprene padded right/left strap for comfort and ease of entry. Push button hinging grip top allows for easy strap adjustment and removes the need for buckles and Velcro, creating the most comfortable and streamlined strap ever.

UTILITY
HOOK

Utility hook - Stubborn boot buckles, heel risers and walk mode levers are no match for the utility hook grip. Flip your pole over and use the notch on the front of the grip to flip, clip, pull and buckle up your gear on the fly.

ADJUSTMENT
TECH

LOCKJAW
6000

LockJaw 6000 - Completely redesigned with a T6 6000 series aluminum lever and body linked together with Teflon bushings to optimize clamp force with minimum lever pressure. The minimalist design achieves a reduced weight of 25% from its plastic equivalent and is the most durable, non-slip adjustment mechanism in K2 poles.

LOCKJAW

LockJaw Adjustment Mechanism - Refined over several generations, the tried and true lockjaw system continues to define the standard for length adjustment mechanisms. Simple, lightweight and durable, the Lockjaw is the workhorse of the K2 pole line.

FLIPJAW
ADJUSTMENT

FlipJaw Adjustment Mechanism - Length adjustment mechanism connecting a smaller diameter upper shaft with larger diameter, more durable lower shaft.

GENERAL
TECH

BUBBLE
INCLINOMETER

Bubble Inclinometer - Quick and accurate slope angle measurement in the palm of your hand.

ALL SEASON
KIT

All Season Kit - Change up the tips and baskets, without any tools, to make them compatible for backcountry exploration in the summer or winter.

NESTING
BASKETS

Nesting Baskets - Notches in the basket to couple the pair of poles for easy carry or storage.

Backup Probe - Want to check the snowpack without having to take off your pack and dig for a probe? No problem, just screw the two lower pole segments together and you have a 200cm backup probe at the ready. With gear this versatile, you're always prepared for the unexpected.

Powder Basket - The newly redesigned powder basket has a 95mm diameter for float in deep snow and a smooth flex to conform to harder terrain during long skin tracks and traverses.

Articulating Powder Basket - The 80mm ball and socket articulating basket features 50 degrees of unhindered movement, allowing the basket to effortlessly match the snow's surface during traverses or when conditions turn hard.

TECHNOLOGY
HELMETS

HELMET
CONSTRUCTION

MIPS

MIPS - The MIPS BPS System is designed to add protection against the rotational motion transmitted to the brain from angled impacts to the head. The rotational motion is a combination of rotational energy and rotational forces from angular acceleration that both affect the brain and increases the risk for minor and severe brain injuries. MIPS' added protection system has been proven to reduce the rotational motion when implemented in a helmet by absorbing and redirecting energies and forces otherwise transmitted to the brain.

HYBRID

Hybrid - This unique construction features the best of both In-Mold and Hard-Shell constructions. The primary In-Mold construction makes the helmet incredibly light, while the secondary Hard-Shell upper allows for more advanced Active Matrix Venting and increased durability.

IN-MOLD

In-Mold - In-Mold is the premium construction for ultra-lightweight performance and is characterized by an EPS liner that is molded directly to a lightweight poly-carbonate (PC) shell. The result is a construction so light you'll forget it's even there.

HARD
SHELL

Hard Shell - Hard-Shell helmets are built to last and will look good no matter how many trips they make in and out of your gear bag. Hard-Shell helmets protect you from impact thanks to lightweight EPS foam bonded to an injection molded and durable ABS shell.

DUAL
ACTIVE

Dual Active - Perfect combination of user/switch regulated Active Matrix Venting and integrated Passive Channel Venting.

PASSIVE
VENTING

Passive Channel Venting - Channels on the inside surface of the EPS direct air-flow between your head and the helmet, removing moisture and excess heat for all day comfort.

ACTIVE
MATRIX

Active Matrix - Climate control at the flip of a switch. Active Matrix Venting allows you to regulate the airflow of the helmet vent system with the push of a finger.

LINER
SYSTEMS

CONVERTIBLE
LINER

Convertible Full Wrap Liner - Same coverage as a full-wrap but easily pops out, leaving the fit system and minimal padding to accommodate warm days and wearing a thin beanie under the helmet.

FULL WRAP
LINER

Full Wrap Liner - A comfortable, washable, full-coverage, breathable liner design that wicks away moisture to prevent overheating and seamlessly integrates fit and audio systems.

TECH FORM
LINER

Tech Form Liner - Compression formed, precise fit liner with removable ear pad and neck roll for a convertible customized fit.

FIT
SYSTEMS

BOA®

Boa® - All the benefits of the 360 K2dialed Fit System with the precision and quality that you have come to expect from Boa® Technologies.

360
K2 DIALED

360 K2Dialed - The 360 K2Dialed Fit System is an evolution of the K2dialed Fit System, delivering unparalleled comfort around your entire head. An intricate web design results in 360 degrees of even pressure distribution for a secure and snug fit that you customize with the twist of a dial.

K2
DIALED

K2Dialed - The K2Dialed Fit System creates a custom-fitting helmet no matter what your head shape. An ergonomically inspired three-point adjustable interface maximizes fit and customization with the twist of a dial. This allows for the ultimate convenience of being able to make fit adjustments on the fly.

AUDIO
TECH

BLUETOOTH
COMPATIBLE

Aftermarket Bluetooth Speaker Compatible - All K2 Helmets are now compatible with Outdoor Tech® Bluetooth audio systems, as well as other after-market audio options.

BASELINE
AUDIO

Baseline Audio systems - Pre-installed audio kit with a low-profile speaker that easily connects to your mobile device without hindering the fit or comfort. The on-cord controller is designed for on-the-go usability at your fingertips for talk or tunes.

GENERAL
TECH

BIKE
CERTIFIED

Bike Certified - Certified by North American bicycle helmet safety standard and European bicycle and skateboard helmet safety standard.

MAGNA
SNAP

Magna Snap - Magnetic retention clip that easily flips up and over the goggle strap for a secure hold that you don't have to fumble for.

REMOVABLE
GOOGLES/
HEADLAMP
CLIPS

Removable Ear Pads - Ability to easily remove ear pads for reduced bulk while retaining the fit system.

Removable Goggle and Headlamp Clips - Customized fit for tool-free, on-the-go versatility.

PowFly - Waterproof breathable cover for Route adds protection against the elements of winter weather.
