RACING PROGRAMM
AUSTRIA
2026 / 2027

Our Values

Be the best.

We never settle for less than delivering excellent products for all skiers.

Do the right thing.

We always treat people and the planet with integrity.

Build relationships.

We empower community through shared passion. We build deeper bonds between people and their skis.

Keep creating legacy.

Our experience and expertise fuel leading innovation and help shape the future of skiing.

Share the joy.

We love what we do. We live to share the fun and happiness skiing brings into our lives.

- **DUAL WOOD CORES:** for maximum energy transmission
- **PULSE ELASTOMER:** for reduced chatter and smoother ride
- **TITANAL TOP AND BOTTOM LAYERS:**

Marker Piston Plate

The Marker 10 mm World Cup Piston Plate levels up the experience of any ski it touches- substantially improving damping, stiffness, and precision. It's not for everyone. But it's perfect for the Multigara Dept skier and the performance they demand.

made by **MARKER**

THE NEW

Dobermann Multigara Dept.

INTRODUCING THE ALL-NEW MULTIGARA DEPT - the pinnacle of the Multi family, crafted for skiers who demand nothing less than the best.

The ski impresses with its **modified World Cup construction**, a highly sporty sidecut, and moderate radius.

It's built for those who want race-level precision, with the freedom to carve their own line. At its core is Nordica's **new Energy 2 Ti DC Dept. construction** features two layers of titanal which sandwiches a shock-absorbing Pulse Core elastomer layer between two wood cores for unmatched power and response. Phenol sidewalls boost energy transfer and reduce drag, letting you push harder with less effort.

And with a Marker Piston Plate underfoot, you get race-proven edge hold, rebound, and control - turn after turn.

Energy 2 Ti Double Core Dept.

Built for the high-speed demands of high-performance carving. Engineered to deliver the perfect balance of precision, power, and feel. Our Energy 2 Ti DC Dept construction was built to attack the slope.

A Pulse Core elastomer layer is sandwiched between dual wood cores for enhanced dampening, while two layers of Titanal - 0.4 mm on the bottom and 0.6 mm on top - maximize energy transfer and stability. It's a race-inspired platform, fine-tuned for pinnacle on-piste performance.

- **DUAL WOOD CORES:** for maximum energy transmission
- **PULSE ELASTOMER:** for reduced chatter and smoother ride
- **TITANAL TOP AND BOTTOM LAYERS:** for strength and terrain-absorbing stability

Marker Piston Plate

The Marker 10 mm World Cup Piston Plate levels up the experience of any ski it touches- substantially improving damping, stiffness, and precision. It's not for everyone. But it's perfect for the Multigara Dept skier and the performance they demand.
