Product Name : S/LAB EQUIPE FIS DH 218

Fired Up, Unstoppable.

Born from the heart of the race circuit, the all-new S/Lab Equipe FIS DH is a statement. With bold new graphics and race-bred DNA, this men's speed ski is built for those chasing tenths like their lives depend on it. Engineered for raw power, lightning-fast reactivity, and unwavering grip at 50 m radius, it carves fearless lines with total control.

Uncompromised speed in transitions

Built for those who attack every transition, this ski hits the sweet spot between strong torsional stiffness and lively energy—so you stay locked in and lightning-fast.

Powerful edge grip

With Full Race Woodcore and race-proven sandwich sidewalls, this kind of construction lets you trust the line, trust the speed, knowing your setup won't let go.

Stability through the turn

Reinforced with 1.2 mm of Titanal, this ski holds its ground even when the slope's a sheet of ice. It's your anchor in the chaos—keeping you charging through turns.

Power to generate speed, playfulness to master the line.

Built for skiers chasing World Cup-level slalom turns, Salomon's Equipe SL Pro fuses explosive rebound, rock-solid stability, and razor-sharp precision into every turn. Ready for race-like thrills on open slopes, it comes equipped with World Cup-inspired I12 TL tool-less bindings for easy mounting and on-the-fly adjustments.

Maximum power

Dual-layer Titanium (TI 0.6 & 0.4 mm), ash wood core, and sandwich sidewalls deliver explosive rebound and grip to carve hard and hold your line with confidence.

Precision and stability

Salomon's new PowerControl System (PCS) with cork inlays in the Ti layer dampens vibrations and increases precision, so you stay stable when speeds rise.

[AL]

Sug. Retail: 400,00 €

Commercial Model Name

Product Name : ICON RS 19

Progress your racing, carve to the top.

Adapting Salomon's World Cup-winning binding recipe to the next generation of champions, Salomon's Icon RS 19 is designed for high-end racing. The V-shaped toe piece centralizes power transmission, channeling up to 30% more power underfoot and releasing up to 15% of pressure from the ski's tip and tail to handle even the most challenging turns.

Power

Enhanced with metal reinforcements at both the toe and heel, these bindings offer heightened rigidity for more responsive control and a stable sensation even at high speed.

Primary Practice

- Alpine Ski

Size Range

- I75

Scales

- Practice : Alpine
- Alpine terrain : On-Piste

Liveliness

Thanks to its special drilling pattern, centralizing power transfer, this binding reduces pressure at the ski's extremities, enabling faster transitions.

Control and rebound

With its centralized power transfer design, reduced vertical rigidity and fully flat race pedal, these bindings offer more control, rebound and direct feedback.

Product Name : ICON RS 16

Progress your racing, carve to the top.

Adapting Salomon's World Cup-winning binding recipe to the next generation of champions, Salomon's Icon RS 16 is designed for high-end racing. The V-shaped toe piece centralizes power transmission, channeling up to 30% more power underfoot and releasing up to 15% of pressure from the ski's tip and tail to handle even the most challenging turns.

Power

Enhanced with metal reinforcements at both the toe and heel, these bindings offer heightened rigidity for more responsive control and a stable sensation even at high speed.

Built for those who race to win.

Engineered for racers who push limits, Salomon's Equipe Carbon poles combine a lightweight 14mm carbon shaft with a new bi-material, 4-finger racing grip for enhanced control, comfort, and feel. A PU sleeve reinforces the upper shaft for added durability when bashing gates, delivering precision and performance through every turn.

Lightweight strength

The 14 mm carbon shaft offers the perfect blend of low weight and high stiffness, while the PU sleeve on the upper half perfectly absorbs gate impacts.

Enhanced grip control

The new bi-material 4-finger grip delivers a precise, race-ready fit with a tacky feel that enhances comfort and maximizes power transmission through every gate.

Race-ready

A race-ready grip, streamlined basket, and easy-to-adjust strap that fastens securely over racing gloves work together to deliver the responsiveness and stability racers need.

Product Name : EQUIPE JR FIS

A helmet for young racers with big goals.

Made for the next generation of racers, Salomon's Equipe JR FIS helmet delivers the confidence, protection, and precision young skiers need to push their limits. FIS-certified and packed with race-proven safety tech, it's built to perform from the first gate to the finish line.

Reliable protection

Salomon's EPS4D and Smart Safety 360 provide race-grade protection. Compatible with an adjustable chinguard (sold separately) that can be added or removed without any tools.

360° customization

The fully integrated 360° adjustment system with vertical tuning ensures a precise, race-ready fit that molds perfectly to your head, so nothing moves but you.

Made to perform

3D earpads deliver precise sound perception to enhance focus and control, while the recycled PET lining wicks moisture to keep you cool and comfortable from warm-up to finish.

Primary Practice

- Alpine Ski

Usage

- Racing

Sharp vision at every run. Full confidence in all conditions.

Designed for skiers chasing on-piste precision, from early-morning training runs to full-speed descents, Salomon's Radium Pro Outline SIGMA™ goggles deliver the clarity and focus you need to perform. Two color-amplifying SIGMA™ lenses with Anti Fog deliver the wide vision, flexibility and lasting comfort you need to stay sharp all season long.

Clear, adaptable vision

Wide vents ensure fog-free vision from first lift to last lap, and you can swap between two spherical SIGMA™ lenses to keep contrast and clarity high in any light.

Durable, dialed-in fit

The full-frame adds structure and protection, while flexible PU, 3-layer foam, and a strap with 60% recycled yarns ensure comfort and helmet-ready fit.

Designed to go all in

A quick lens swap system and hybrid storage box keep your goggles protected and ready wherever you go and whatever the mountain brings.

Commercial Model Name

Product Name : SENTRY PRO S SIGMA (and EXTRA LENS)

Street-style vibe and mountain-style vision for women and narrow faces.

Designed with a smaller frame to better fit women and riders with smaller faces, Salomon's Sentry Pro S SIGMA™ goggles perfectly balance style and performance. Whether you are shooting new tricks or riding big lines, the two color-amplifying SIGMA™ lenses will keep your vision sharp and your style bold. Pull a lens off, click another one on and go!

Compact size

Combining a low-profile frame and Salomon's Custom ID Fit technology, these compact goggles provide a snug and secure fit particularly to women and people with narrower faces.

Durability and convenience

Featuring a frame made with durable and flexible materials and a wide strap with silicone, these goggles will stay in place and last you for seasons to come.

Amplified vision

Delivered with two SIGMA™ lenses featuring different levels of tint, these goggles make it easy to enjoy enhanced color contrast and perfect vision in different weather.
